## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 7 and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by USP 5,149,474 to Rohatyn (herein referred to as "Rohatyn").

Rohatyn teaches a method of making glass, forming molds of an amorphous fused silica composition comprising: mixing  $\text{Al}_2\text{O}_3$ ,  $\text{CaO}$  and  $\text{SiO}_2$  together to form a mixture, drying the mixture and the temperature-curing in an oven the material to form an agglomeration (see col. 6, line 35-col. 7, line 27).

### ***Allowable Subject Matter***

3. Claims 8 and 10-13 and 15-19 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The following is a statement of reasons for the indication of allowable subject matter: the prior art does not teach or suggest the process for making an agglomeration of fused microspheres such as recited in the instant claims.
